Tournament Winner  
Tournament Runner-Up

Heaviest Wahoo  
Most released Billfish

**TOURNAMENT WINNER & RUNNER-UP** - The winning team (Best Team) and Runner-up (Best Team Runner-Up) will be determined on a point-based system to be calculated as follows:

Sailfish are caught by a team(s):

- Sailfish released per rules – 2000 points
- If two or more teams are tied with the same points, the winner and runner-up will be determined by establishing the earliest caught sailfish of the tied sailfish. Official time will be established by the video recorded GPS boat console or handheld GPS time.
- A scoring example is as follows:

**Scoring example for a team tied with equal released sailfish:**

Sailfish #	Team A	Team B
1	GPS Time Filmed @ Time of Release 7:30am	GPS Time Filmed @ Time of Release 8:00am
2	GPS Time Filmed @ Time of Release 11:30am	GPS Time Filmed @ Time of Release 10:30am
3	GPS Time Filmed @ Time of Release 1:00pm	<b>GPS Time Filmed @ Time of Release 12:30pm</b>
<b>Result</b>	RUNNER-UP	WINNER

- In the event that the last sailfish are caught at the exact same recorded time HH:MM:SS, the tie will be broken if one of the tied teams has released a marlin.
- In the event a tie remains, the winner and runner-up will be determined by adding the total point combination from the following 5 species:

One (x 1) point will be awarded per kilo and only two (x 2) fish per species will be weighed.

- |              |                   |
|--------------|-------------------|
| 1. Barracuda | 2. Dorado         |
| 3. Bonito    | 4. Yellowfin Tuna |
| 5. Wahoo     |                   |

- If no sailfish has been released by the respective teams but marlin have been released, the tournament rankings will be determined by adding the total point combination from the following 6 species (MARLIN WILL ONLY BE COUNTED IF NO SAILFISH HAVE BEEN RELEASED):

1. In this instance, a released marlin according to the rules will be awarded 500 points each.

One (x1) point will be awarded per kilo and only two (x 2) fish per species will be weighed

- |              |                   |
|--------------|-------------------|
| 2. Barracuda | 3. Dorado         |
| 4. Bonito    | 5. Yellowfin Tuna |
| 6. Wahoo     |                   |

- If no sailfish or marlin has been released by the respective teams, the tournament rankings will be determined by adding the total point combination from the following 5 species:

One (x1) point will be awarded per kilo and only two (x 2) fish per species will be weighed

- |              |                   |
|--------------|-------------------|
| 1. Barracuda | 2. Dorado         |
| 3. Bonito    | 4. Yellowfin Tuna |
| 5. Wahoo     |                   |

- For the skipper's and team league, the total of sailfish points will first be used to determine the actual tournament rankings. Other species points will only be used to

- determine rankings when there is no sailfish caught in the tournament or where certain teams that are participating in the tournament and the league(s) have not caught a sailfish.

19. **BILLFISH RELEASE WINNER** - A release of a sailfish/spearfish is awarded 100 points and a release of any marlin will be awarded 300 points and release of any swordfish will be awarded 400 points. All billfish that are released must be filmed on video per conditions listed as evidence for review by the weigh master to be eligible for the award of points for successful release.

**Billfish Release Criteria: All conditions apply in Point 8.**
